ROYAL® has partnered with COLOP® & will be the exclusive distributor of the e-mark® go in the United States.

About COLOP®

COLOP, the company behind the e-mark®, headquartered in Wels, Austria, was founded 1980/81. As one of the worldwide leading manufacturers of stamps and marking devices, COLOP built up a wide distribution network with a presence in 130 markets across the globe, having an export rate of 98%. It took many years to develop the multiple award winning COLOP e-mark, being the first mobile printer of its kind.

The e-mark® go represents the latest generation of the mobile printer – developed and produced in Austria.
